

Learning from Home Years 7 - 11

At Ysgol Cwm Brombil, our digital learning platform is **Microsoft Teams**. Each subject class has its own Teams group. This means that:

- all class work and learning resources can be accessed from each subject Teams group;
- your child is able to contact each of their subject teachers to ask for help with their learning – or additional learning – when they need it;
- links to any additional website can be accessed via each Teams group;
- your child can upload their work for feedback via each subject Teams group.

How will my child access work if they are not in school?

If your child is absent from school for any reason, including self-isolation for 14 days

Your child should work from home, accessing class work and resources via their subject Teams groups.

They can contact their teacher for help and upload their work through each Teams group for each class.

In the event that there is an enforced closure or partial closure of school

The school has a Blended Learning Policy ready for this situation.

In this event, your child will be issued with a new timetable to help to schedule their workload around their time at home and at school.

All learning resources will be available via subject Teams groups

What do I do if we cannot access Microsoft Teams?

Your child has been shown how to use Microsoft Teams in school. If they are having difficulty using the digital platform at home, they can email ITSupport@ysgolcwmbrombil.co.uk for technical support.
