

Love to Learn this year will be through Genius Time. See the attached sheet for more information on the project. Each project has 5 steps and will last a full term. Every week, a different part of the project will be set with reminders. You can record your work on your class TEAMS, saving work into your file.

## **1** *Find a Passion*

Brainstorm ideas and narrow down options for your project. Make a list of all the different things you would like to learn about, this could be absolutely anything! You should have at least 3 passion ideas at the end of this process. A few examples of past projects are – Arctic Animals, Lego, The Eiffel Tower, Snowdon Mountain, City of Swansea, Brazil. Once you have your brainstorm map, you could start to research the 3 passion ideas.

**Remember to practice skills that you found tricky from last week and get ready for next weeks learning.**

**Times Table Practice** – Focus on ones you find challenging.

**Home School Reading Book** – Keep up the reading at home, aim for 10 minutes a day.

**Doodle Maths/ English** – Online or app based learning to develop basic skills.
